Observations..

By the Editor

The Gulf Chevrolet Company changes hands April 1st and, of course, we hate to see our good friend Al Voight leave this field of endeavor; nevertheless we are happy to extend a hearty welcome to Arthur Tipping, who is no stranger to Bay St. Louis, as his successor. Al will not leave Bay St., and in fact, he will not give up business as a whole. He is going to continue the operation of his Dixie Auto Lee Store, and devote much of his time to his beautiful country place at Nicholson Avenue and Washington Road. He has become quite a connoisseur of the automobile, and there will be open house at Gulf Chevrolet all day Monday, April 2. Drop by and bid "Hi" to a hearty welcome; he is a splendid addition to the business life of our County.

The annual Broom Sale, sponsored by the laymen of Christ Episcopal Church will be held tomorrow, Saturday, March 31. Brooms, whisks, brooms, mop heads, all made at the Lighthouse of the Blind in New Orleans, will be on sale in front of Schaff's Jitney-Jungle, on Main Street, deMont-luzin's, on the Beach, and C & S Food Store on Railroad Avenue. The purchase of any of these articles will help a most worthy cause.

Marihuana, commonly known as muggles, one of the most vicious of all drugs, is being peddled about Bay St. Louis, from information we have received. A dope peddler, in our opinion, is the lowest and most purified form of humanity, and all officers charged with the enforcement of the law should exert every effort to root out the rotten stogie which would, for some easy money, entice the youth of our community to indulge in the habit of smoking muggle cigarettes. How low some people will drop for a few paltry dollars, and how much misery their exploitation can bring to a happy family circle. Just a word to the law enforcement group. There are some things overlooked by you which are also overlooked by the public, but dope peddling is not one of them; and we feel that you should look at this matter in the same light that we, and many others, do. We are hopeful that it will not be long before, if this condition is still existent, when you will root out the damnable culprit and give him his just dues.

Octave Delph, Chairman of the 4-H Advisory Council, reported at the meeting of the council held at the REA offices, that over half of the quota of \$906.00, allocated to this county for the expenses of erection of camps for the 4-H boys and girls, of Mississippi had been raised. Mr. Delph is quite hopeful that the long balance will be raised. The work of 4-H clubs should be encouraged, and "O" and his co-workers are going to let no stone unturned in their goal to raise these funds, and make the people of Hancock County conscious of the benefits of organized work among the 4-H boys and girls. We cannot lose sight of the fact that these boys and girls of today are going to be the men and women of tomorrow.

Have you forgotten the American Red Cross? You certainly should not. There is no other organization in the world doing more good for suffering humanity than the American Red Cross. Of course, as we have said before there is every opportunity for some one to be able to find fault with the workings in some individual cases, in such a great and large organization, but we should take into consideration the fact that, after all, it is operated by human beings, and none are infallible. We should not withhold making a contribution to this worthy cause because some individual made a mistake. Apparently, the folks in Hancock County have forgotten the Red Cross, and most certainly they shouldn't. Do you realize the quota is not half raised. Let's get on the ball and make our contributions, and give all you can.

He gave a short talk on the serious side of life, after giving a display of his keen wit. Dr. Price said "we have had pointed out to us in this fast moving world that we have lacked something in our lives, unless we have come together in organization." He said it was a pleasure to meet with the group composed of men of different creeds, different professions, different work, and see the harmonious spirit so evident. "In coming together we are seeking to bring people closer to God," he said. Dr. M. Russell, Jr. had Dr. Price as a guest. With him were Rev. R. L. Lee, pastor of the local church, and C. W. Dudley, choir director. Mr. Lee introduced Dr. Price.

Theatre Schedules Tryouts For Tues.

Tryouts for the next production to be given at the Bay St. Louis Little Theatre will be held Tuesday, April 3, at 8:00 p. m. at the Playhouse, Mrs. Frank Kiefer, director, announced.

The play, Somerset Maugham's "Rain," will require four middle-aged men, from 25 years on for the main male roles. Other parts to be cast will include four female roles for persons 25 to 35 years of age, 35 years and up, and one for a heavy set person around 30 years of age.

Three or four small children are needed to complete the cast, along with several young men and girls for Polonesian roles.

"Born Yesterday" Scores Direct Hit

Garson Kanin's "Born Yesterday," scored a direct hit on its opening night, Thursday, March 30, at the Bay St. Louis Little Theatre. It is a gay and entertaining production with many laughter-provoking lines.

Set in a suite of a Washington hotel, which costs only "\$235.00 a day," just after the war, the story develops around the underhanded plots of a millionaire tycoon. John Scafide, to corner the scrap-iron market in Europe, buying a Senator here and crooked talent there. His other project is to smarten-up his pretty blonde companion, portrayed by Miss Betty Lee Mitchell, ex of the chorus; and for this all too successful venture, he hires a young reporter, John McCorkle.

Miss Mitchell, who not only directed the play, but starred in it as well, gave, as did the other members of her cast, an outstanding performance as the ex-chorus girl who proves in the end that she has quite a head under that glamorous hair, to say nothing of a kind of powerful honesty.

John Scafide as the loud-mouthed bullying braggart Harry Brock who made a fortune in dealing with "just junk" is doing justice to a role that was played by an Academy Award winner. He portrays the rowdy, cheap egotist with near perfection.

A new star has made his way into the local theatre circles in the person of John McCorkle who plays the handsome, alert and energetic reporter who has a tendency to take life and himself too seriously. His characterization is played to perfection, and he deserves a good deal of credit for this, his first performance.

As usual, Phillip Allison is giving one of his splendid performances as Ed Devery, a former assistant Attorney General of the United States, who has strayed along the downward paths and resorts to drink and solving legal difficulties for Brock, at \$100,000 a year, which buys plenty of the best Scotch. Buying senators, such as Norval Hedges, ably portrayed by J. Roland Weston, is another of his duties.

Eddie Brock, Roland Hedges, has little to say, but in a casual manner he adds much to the hilarity of the play. Other supporting characters who give good performances in their bit parts are Mrs.

The speaker said that for the 100,000 boys and girls in clubs in Mississippi, three camps, to provide recreation and instruction are available. The camps are located at Sardis, Canton and Ocean Springs.

If you elect me your Sheriff and Tax Collector, I will honestly and faithfully perform the duties of the office.

I promise to maintain a competent office force, large enough to serve the tax payers courteously and quickly so as not to have a long line of people waiting for service.

avenue tonight and tomorrow night; so, for an evening of pleasant entertainment, be sure and see "Born Yesterday." Once seen, Brock's classic line "the more I see of you I don't like you as much," will be reversed to mean, "the more I see of it, the more I like it."

A week's revival opened at the First Baptist Church Sunday, March 25, with Dr. John M. Price, Jr., professor of religious education, bringing an Easter message at the 11 o'clock service.

Dr. Price, who spoke primarily on why people go to church, said that they do not go for business reasons, etc., but for a closer relationship between man and God. "I bring you the message of the Cross, love and mercy, freedom from self, and surrender to God of ourselves as Christians and others did," he added.

Reverend R. L. Lee, pastor of the local church, said that it is not the purpose of this Revival to convert anyone from the creed he may have been brought up with, but "we invite everyone to attend these services and go back to their own churches the better for having heard these messages. They will give them something to take back with them."

The choir, which is under the direction of W. C. Dudley, offered as a special number Sunday, "Hallelujah for the Cross."

Listen, America, Today . . . There's No Time To Tarry

LISTEN AMERICA . . .
Take your mind away from the power politics, the race for prestige, the grasp for monetary gain . . .
Turn your ears from the blatant rasp of man's clash with man over minor, internal irritants . . .
Turn your hearts back from vindictive, avaricious speed and petty envy . . .
Listen America, to your grassroots again. Think once more of grain growing, men in fellowship and worship rippling streams and whispering woods.
Then—read, America . . .
Cast away the black headlines proclaiming death, destruction, crime and corruption. Forget the perils of the adventure comics and the teasing cheesecake.
Read, instead, a country weekly. Indulge yourself in "home-town-boy-makes-good," "Mrs. Smith visits Mrs. Jones" and "the Larsons had twins last week."
Read, instead, a generous editorial, written on a quiet Sunday afternoon to the background of cattle lowing on a far off hill and a church bell's symphonic obligato; written by a man intimately concerned about every reader's problems because they are his own.
Look, America, to your hometown paper, where a three-column, 24-point streamer constitutes a "scare" headline and is used only on the coming of the county fair.
Learn, America . . .
Learn, before it is too late, of the futility of class against class and mass against mass. See the smallness of "isms" and political favor. Eschew the clash of creed against creed, race against race . . .
Learn, instead the appreciation once more of a job well done, of cooperating with fellow men for common good, of building a future for future generations and memorializing the past for those now alive.
In these days of strife and turmoil, there is no easy task—no, even a moment of relaxation is much to ask. But indulge yourself, America, give yourself the pleasure of a few brief moments of considering the human being as mortal—and this nation itself, mortal or immortal as each generation decides.
It is such a little thing but there is precious little time. Listen, read and learn, America—before it is too late.
Then, awaken—
Charge back into the material world of war and production. Control your prices, strengthen your economy, give a little and take a little. Remember, today is tomorrow's yesterday and next year could be a conqueror's time for power.
Re-awaken, America; refresh yourself. Bathe in a sense of responsibility—not fixed sports events and back-handed maneuver for a pressure group's extra profit. Dry yourself on the rough towel of realism and appreciation that cooperation makes this nation strong and dissension makes it weak.
There is a power in this nation—a power most often found in the small town where man knows his neighbor, appreciates his good and helps him erase his evil. Let that power spread. Perhaps, one day, it will spill over our boundaries and engulf the world.—GHB, Publisher's Auxiliary, March 17, 1951.

After 15 years as your Chevrolet Dealer, I will on April 1st, 1951 retire from the Automobile Business. I have sold the Gulf Chevrolet Company to Arthur B. Tipping who will assume active ownership at that time.

Mr. Tipping, the new owner, lives in Pass Christian, and as a boy resided in Bay St. Louis, and attended school here. He is a personal friend of mine; a first class business man and one in whom you can repose your confidence. For a number of years he has been associated with General Motors Acceptance Corporation and is well versed in the automotive field.

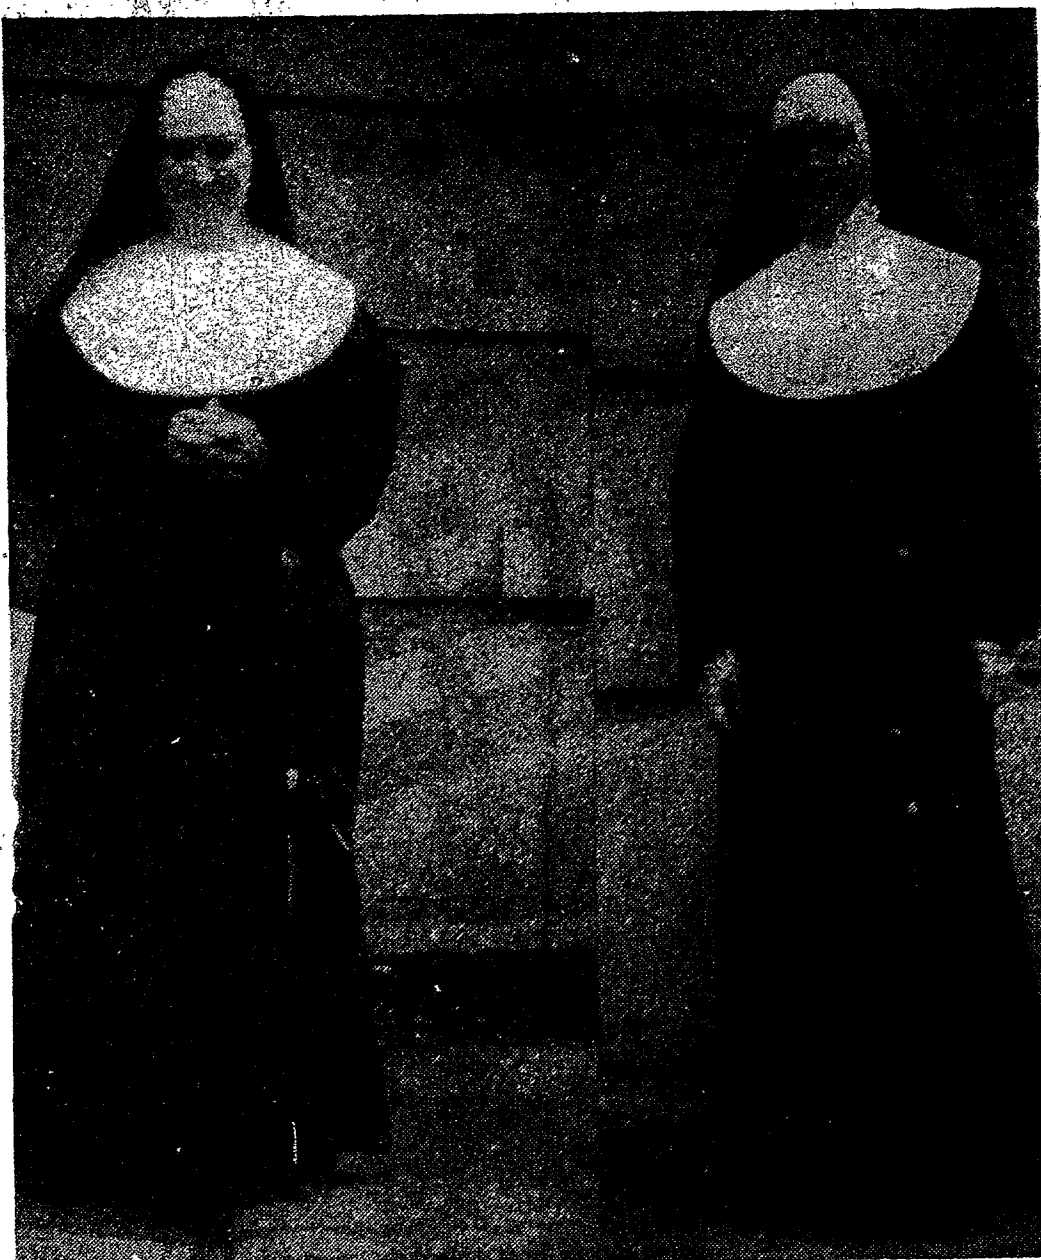

The present employees of Gulf Chevrolet, Mrs. Vic Ladner, accountant, Roy Baxter, Jr., Service Manager and all of shop crew will be retained in the new organization.

In passing from my field of endeavor may I urge you to continue buying Chevrolet Cars and Trucks from the Gulf Chevrolet Company, and too, remember the splendid Chevrolet Service, which will be with Mr. Tipping, as with me, a high point of the agency.

I shall continue to live in Bay St. Louis and shall operate my Dixie Auto Lec Store, under good management, and shall look after other personal interests.

I want to extend my sincere thanks to my many patrons and personal friends for the business afforded me throughout all the years, and I assure them of my deep appreciation, and I ask of them, again, the continued support of the new Chevrolet Agency . . .

Air Force Waiting List Is Decreasing

The Air Force waiting list is getting low, SSGT. B. B. Moore of the Bay St. Louis Army and Air Force Recruiting Station announced today. The Coast area has been given a slightly increased quota for enlistment in the U. S. Air Force of men with no previous military service.

Another factor which is reducing the waiting list, according to Sgt. Moore, is that many men, who were on the list, have received pre-induction orders and are now ineligible for enlistment in the service of their choice.

Men without prior service in any branch are invited to visit the Army and Air Force Recruiting Station at the Court House in Bay St. Louis, on Friday of each week, or the American Legion Building in Gulfport any week day, for further information.

There is still no restriction on enlistment in the Air Force for veterans of any service, Moore added.

TELLS OF RIGHT MEAT STORAGE

Each year, the research people hold a meeting in Chicago just before the International Live Stock Exposition to review and discuss recent work conducted at experiment stations in the field of meat production and meat preservation.

K. F. Warner, Extension Meat Specialist, Washington, D. C., attended the meeting and has summarized several papers presented at this meeting.

"Frozen pork became rancid more slowly (had longer storage life) when (1) the original pork was hard, not soft, (2) the storage temperature was zero or below, (3) it was closely wrapped in an effective vapor-resistant cover. Complete defrosting of the pork, followed by refreezing and zero storage, hurt the flavor less than storage at 10 degrees above with no defrosting.

The drip from thawing rib steaks contained from 1/10 to 1/3 of the various B vitamins present in frozen steak. That means to thaw meat without unwrapping, if possible, to prevent moisture in the air from condensing on the meat and leaching out the food value. It also means to add the drip to the gravy.

Benzene hexachloride is an effective spray for ridding hogs of mange. It is also a good means to put an off odor into the pork. Some people might blame this odor on the locker plant. Do not spray (not even with the less objectionable "gamma isomer" concentration) within seven days before the hog is dressed for meat.

As much as 120 pounds of chilled meat was frozen at one time in a home freezer of about 12 cubic feet capacity. They report "little effect upon the temperature of the frozen food already in the box." This is a greater freezing capacity than I would have expected. The meat froze to below 25 degrees in about 24 hours.

There's more connective tissue in the muscles of the round than in the rib muscle of the back. The back tenderized more rapidly during aging than the round. Round steak is popular, folks like it, but they should understand that it cannot be as tender as loin or rib steaks.

Seventy-four percent of the farmers use the dry cure on their pork, and about ten percent use some kind of pump. Forty-one percent of the home curers use salt only, twenty-six percent use a commercial mix, twenty-two percent a home prepared mix, and eleven percent a combination. This survey was conducted by G. F. Dunker and O. C. Hankins of the U. S. D. A.

Whole hams and slab bacon have better frozen storage qualities than ham and bacon sliced and stored under same conditions. Sliced cuts retain their normal flavor for 6 to 8 months whereas whole hams store well for a year. Bacon does not store as well as hams and shoulders. Seasoned sausage of freshly killed pork, packaged in one of the better materials and stored at zero degrees Fahrenheit or lower will keep well for six months. NOTE: Packaging materials are scarce. It takes a certain material to protect foods at zero storage degrees from loss of moisture, flavor and food value. Many of these materials like aluminum foil, phtofilm, cellophane and polyethylene are used in war. Buy needed supply now. Reuse materials wherever possible. One of the essentials of successful freezing is proper packaging with the better materials.

Mrs. A. Beyer, 94, Dies On March 21

Mrs. Amanda Beyer, 94 year old native of Hancock County, Mississippi, died in Picayune Wednesday, March 21, at 3:00 p. m. She had resided in Picayune for the past five years.

Mrs. Beyer was the daughter of the late James Miller and Sarah Brown, both natives of Hancock County. She was the wife of the late John Beyer, Sr. She is survived by three daughters, Mrs. L. K. Russ, Picayune, Mrs. Abner Hursey, Pearlinton, and Mrs. Eva Hardee, New Orleans; a son, T. M. Beyer, Pearlinton; a sister, Mrs. M. J. McGruder, Memphis, Tennessee; three grandchildren and eight great grandchildren.

Services were held from Mc. Donald Funeral Home, Friday, March 22, at 2:00 p. m. by Rev. Ernest Frank Demit of the Methodist church; interment was in Pearlinton cemetery.

MR. AND MRS. WATSON

Photo by Nelius Favre

Miss Betty Johnson, daughter of Mr. and Mrs. B. D. Johnson of this city, and Sergeant Delos Watson, Army Air Corps, stationed at Biloxi, son of Mr. and Mrs. Earl Watson of Lady Smith, Wisconsin, were married Sunday afternoon, March 8, at 9 o'clock at Our Lady of the Gulf Catholic church. Right Rev. Monsignor A. J. Gmelch officiated.

The bride was given in marriage by her father; she wore a becoming suit of brown, beige and white linen with a matching hat. Her corsage was of white carnations, and she carried a white missal and crystal Rosary. Her accessories were white. The couple left for a short wedding trip, and upon their return they will occupy an apartment on Union street.

She had as her only attendant her sister, Miss Norma Johnson, who wore a dress of Navy sheer with a touch of white and a Navy and white hat. Her corsage was of pink carnations. Sgt. Watson had as his best man Ray Casella, Elizabeth, New Jersey, who is a student at Tulane university.

Following the ceremony an informal reception was held at the home of the bride's parents. The house was decorated with spring flowers. The bride's table was covered with a lace cloth and held the three tiered wedding cake.

Bobby is the second boy from Bay High to receive such an invitation. Last year Clyde Favre, tackle, participated in this game.

Both teams will report to Mississippi State college Sunday, July 29. While on the campus, they will be housed in the athletic dormitory and they will be provided with entertainment to keep them occupied. On the day of the game, they will be transported to Jackson where the event will take place.

Before the kickoff, they will be introduced to the spectators and presented with an All-Star jacket. Clapp plans to accept the invitation, officials announced. His leg injury, received during the basketball season, will be completely healed by that time.

Friendship—Four Thousand Miles Apart

Never quite got the hang of how to play chess myself, but I'll say this for the game—it started one of the strongest friendships I know of: between Dad Wilson in our town and a fellow in Sudbury, England.

The two of them have never met or seen each other—but for eight or nine years they've been playing chess by mail together. Dad puzzles over the Englishman's latest letter, takes a couple of days to think it over, and then airmails a chart of his next move.

Dad always thinks best with a mellow glass of beer beside his

chessboard. And the fellow in England writes that he does the same. "Almost as if we were in the same room," says Dad contentedly.

From where I sit, you can talk about diplomacy and foreign policy, but it's often little friendly things—like a game of chess or a glass of beer—that can make for tolerance and understanding between people of different nations, between folks here at home.

RESOLUTION

WHEREAS, a regular meet-
ing of the State Highway Com-
mission held in Jackson, Missis-
sippi, on the 13th day of March,
1951, a discussion was held with
the Mayor and one of the mem-
bers of the Commission Council
of the City of Bay Saint Louis
relative to the placing of the
new highway on the present site
of Uman Avenue in the City
of Bay St. Louis, and

WHEREAS, during the course
of said discussion it was sug-
gested by the members of the
Highway Commission that in
order to construct the new
highway on the present loca-
tion, it would cost the High-
way Commission approximately
\$800,000.00 more than the cost
on the proposed location, 2,000
feet north of the present high-
way; it was suggested to the
members of the City Council
present that if the City of Bay
St. Louis would assist in de-
fraying part of the expense of
moving its present water main,
gas mains and sewer lines on
Uman Avenue and get the Mis-

issippi Power Company, the
Southern Bell Telephone and
Telegraph Company and the
United Gas Company to defray
the expense of moving its fa-
cilities on said date, that the
Highway Department might pos-
sibly retain the present loca-
tion; and

WHEREAS, in a discussion
with the officials of the Missis-
sippi Power Company and the
Southern Bell Telephone and
Telegraph Company, each of
which have their power lines
on the present location, it was
verbally agreed by the Missis-
sippi Power Company and the
Telegraph Company that in case
the Mississippi State Highway
Department made a demand or
request on the City of Bay St.
Louis to request the said com-
panies to move their individual
lines and equipment, that they
would be willing to move said
lines and equipment at their
own expense in order to assist
the City of Bay St. Louis; and

WHEREAS, the United Gas
Company, which maintains a line
over the present highway site on
Uman Avenue, has been con-
tacted by this Council in an ef-
fort to determine whether or not
it would move its line (gas
line) at its own expense, but at
the present time the said United
Gas Company is not in a posi-
tion to definitely commit them-
selves until they have had oc-
casion to check necessary costs,
etc., but it is assumed that a
definite answer will be forth-
coming from them; and

WHEREAS, the City of Bay
St. Louis is not financially able
to move and install new gas,
water and sewer lines through
Uman Avenue at the present
time, which present lines are
presumed to be in good con-
dition, without the necessity of
floating a bond issue which
would be imposed on the tax-
payers of Bay St. Louis, and
since the present bonded indebt-
edness of the City of Bay St.
Louis restricts any further
bonded indebtedness in such a
large amount as this expenditure
would require; and

WHEREAS, this Council is
"willing and anxious to cooper-
ate with the State Highway De-
partment in the construction of
a new highway through the
City of Bay St. Louis to link a
new bridge over the Bay of St.
Louis, and hereby pledges itself
its full cooperation with the
Mississippi State Highway De-
partment.

THEREFORE, BE IT RESOL-
VED that this Commission Coun-
cil does hereby commit itself to
cooperate with the Mississippi
State Highway Department in
the construction of a new high-
way through the City of Bay
St. Louis on the Uman Ave-
nue route or any other route.

The foregoing resolution hav-
ing been first reduced to writ-
ing was read and considered
section by section and then as a
whole and upon motion, duly
seconded, was finally passed
and adopted section by section.

and then as a whole by the
following vote, to-wit:

W. J. Carver, J. Cyril Glover
and Sylvan J. Ladner, Jr.
Those voting nay: None.

ing at the Logtown School. The
meeting was opened with the
reading of the P.T. A. prayer
by the president, Mrs. John E.
Metzler. Following the com-
pletion of current business, pro-
gress reports were rendered on
acquisition of playground equip-
ment and cafeteria equipment,
and the landscaping of the school
grounds.

The meeting was then turned
over to Lamar Otis, chairman
of the nominating committee, who
presented the committee's rec-
ommended slate of officers for
the coming year. With no ad-
ditional nominations being made
from the floor, the slate was
elected. Those elected to office
were Mrs. Louise Bristow, vice-
president; Mrs. J. E. Landrum, vice-
president and Colonel Metzler,
secretary-treasurer. Outgoing
officers who had served for the
past two years were Mrs. Metz-
ler, Mrs. Yarbrough and Mrs.
Landrum.

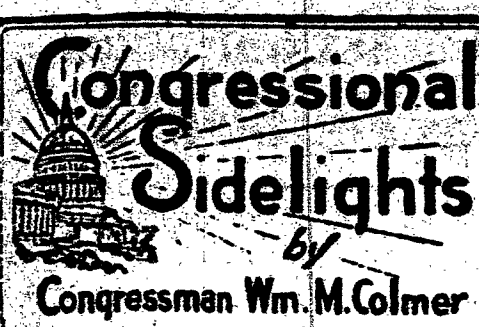

Mrs. Metzler, as retiring pres-
ident, thanked all those pres-
ent for the support and co-op-
eration they had given her for
the past two years. She stated
that she hoped that the proper
groundwork of the local P.
T. A. had been laid, and expressed
a sincere hope that the new-
ly elected officers would receive
the continued necessary support
of all members.

Mrs. Bristow was then invited
to assume the chair and, after
making a short acceptance talk,
adjourned the meeting. A
pleasant social hour, with coffee
and sandwiches being served, fol-
lowed. Tables were pleasingly
decorated with flowers present-
ed and arranged by Mrs. DeBoer.

law and sister, Mr. and Mrs. A.

MORE ABOUT GOVERNMENT
ECONOMY

In these days of high taxes and
gigantic governmental expendi-
tures when lip service is freely
given to the cause of economy,
some of us in the House are de-
termined to do something definite
and concrete about it. Last week
the first of several appropriation
bills came up for consideration
in the House. This was known
as the Treasury and Post Office
Bill. The House Appropriations
Committee, in several weeks of
hearings, had cut the President's
recommendation by several million
dollars. But when the bill got
to the floor, several of us on
both the Democratic and Republi-
can sides had amendments pre-
pared which, if adopted, would
result in a further saving of sev-
eral additional million dollars.

The net result after two days
of debates was that a large num-
ber of Republicans and a small-
er group of Southern Democrats
succeeded in having a number of
amendments adopted which, ad-
ded to the cuts made by the com-
mittee itself, reduced the appro-
priation to approximately forty
million dollars less than the Pres-
ident's Budget Commission had
requested. It was noticeable in
this connection that not a single
Democrat North of the Mason-
Dixon Line voted for a single
amendment.

INDICATIONS

The Treasury and Post Office
Appropriation Bill offers little
opportunity compared with those
of other bureaus for reductions
below Budgetary estimates. The
fact that this bill was cut almost
forty million dollars by the House
and its committee below the
President's Budget indicates that
other bills will be cut more. In

other words, Members of Con-
gress, at least in the House, have
indicated their determination to
try to keep the old ship of state
afloat. It will be interesting to
see what happens to this bill
when it gets to the Senate, which
body in the past several years
has been noted for its increases
over the House figures.

The A & G Theatre will be converted into an 'Asylum of Horrors' next Tuesday, April 3, when Dr. Silkini, the ghost master presents his weird comedy riot on the stage. This show features the one and only FRANKENSTEIN MONSTER, who is pictured above, direct from the Universal Studios in Hollywood. Critics proclaim FRANKENSTEIN to be more gruesome on the stage than on the screen. Girls: this show will either put new life in your men or new men in your life. Bring your boyfriend and see if you have a MAN or MOUSE. You will be thrilled! Horrified! Scared to death when you see FRANKENSTEIN in person. This show is the scariest stage and screen fright of them all . . . it's a thriller for anyone from 6 to 60, but as Dr. Silkini says, "It's all in good fun." Many faint away at every performance; so if you want an unusual evening, don't miss the "Asylum of Horrors" on the stage at the A & G Theatre.

CANDIDATE FOR GOVERNOR

Mrs. Mary D. Cain, editor-publisher of The Summit, Miss. Sun, announced this week her intention to qualify with Secretary of State Heber Laddner and enter the gubernatorial contest on a platform of reduced taxation and a return to basic concepts of Americanism.

"I have until June 8 to qualify," said Mrs. Cain, "but I intend to do so just as soon as I have my platform established in plain, unmistakable English. I promise but one thing: there will not be one word of political expediency in it. There will be only the path I would wish us to follow if I am elected. I approach this ordeal with humble heart, knowing all my many limitations and handicaps. But one thing I know: I bring to it the utmost sincerity and a desire to serve my state honestly, honorably and with all the wisdom and intelligence God will permit me. I ask for your prayers and your help, if you can conscientiously give it—and your money. I want to be under obligation to no man if God sees fit to permit me this high office. Political pressure has been the undoing of this nation."

MRS. MARY D. CAIN

Mrs. Cain is the daughter of Mrs. C. G. Dawson of Summit and the late Charles Goodrich Dawson, bridge foreman for the ICRR Co. She whimsically explains that she is a native of Louisiana "by accident," as her parents had a home in McComb, Miss., but her mother was on the camp cars with her father the night she arrived—and the camp cars happened to move to Louisiana.

She is the wife of John L. Cain

Dr. B. S. Waller Dies Wednesday

A New Orleans paper carried the news last Wednesday morning of the death of Dr. Benjamin Sylvanus Wallace, 81 year old resident of Monticello.

Dr. Waller was a brother of the late Curtis Waller so well known here. He lived with his mother, the former Clarinda Longino, who is 101 years of age.

Dr. Waller was a member of the late Calvary Baptist church and was a deacon and an active member. He took his undergraduate work at Mississippi College and his medical degree at the University of Louisville. He leaves a son, Lt. John W. Waller, USN, on duty in Korea; a daughter, Mrs. I. W. McDonald of Meridian; and two sisters, Mrs. Leon Tyrone and Mrs. J. D. Batson, both of Prentiss.

of Summit, owner of Cain Service Station, and they have been married for twenty-six years. Mrs. Cain is 46 years of age.

A graduate of Pike County Agricultural High School (now Southwest Junior College Summit, and of Hillman College, Clinton, Mrs. Cain also had special work in Journalism at Louisiana's State University.

For eighteen months she edited the Summit Sentinel, owned by the Bonney family, then began, "from scratch," as she puts it, the Summit-Sun. She began publication of the SUN in April 1936.

Mrs. Cain served for two years as president of the Mississippi Federation of Business and Professional Women, was founder and served for two years as president of the Mississippi Federation of Press Women, and for a like period as Regional Vice-Chairman of the National Federation of Press Women. She organized the Summit PTA and was instrumental in seeing that the Summit Rotary Club was organized. She is a Jeffersonian States-Rights Democrat and will tolerate no abbreviation of the title to "Dixiecrat." She insists the States-Rights movement is national in scope and is not confined to the South.

"I stand for what Jefferson did," she said, "a wise and frugal government... the right of labor to enjoy the bread it has earned."

She is a member of the Baptist Church and Edith Chapter No. 87, Order of the Eastern Star, where she is currently serving as Esther.

She is the first woman ever to aspire to the Governor's chair.

Brass Tacks and Righteousness

Cursed with corruption, beset by confusion, threatened with inflation and alarmed over Russia's behavior and the Korean-Chinese crisis, it's no wonder people are so apprehensive and perplexed.

It might be well for all of us to take more frequent mental and spiritual inventories of ourselves, much as ailing or symptomatic individuals have occasional physical checkups to see if their pumps and carburetors are functioning properly.

Taxation, regimentation, coordination and quick freezing have millions of men and women guessing and going in circles, in an effort to find some kind of common denominator by which they may keep their equilibrium and regulate their personal and financial conduct.

In the light of history, it would seem that a few things are pretty well established in the scheme of our existence. At least as far as we are concerned here in incomparable U. S. A. the Ten Commandments, the Sermon on the Mount, the Declaration of

Independence, the Federal Constitution and its Bill of Rights are good American gospel. There should be no question or argument about things so essential to our way of thought.

Common decency, honesty, loyalty, devotion, freedom and patriotism are enduring virtues that survive periods of social upheaval and unrest. And work and thrift have made such contributions to our happiness and prosperity as to justify consideration in any kind of economy, whether one of war or peace.

So, after all is said and done, we will find, as our forefathers found in their own day, that some things are fundamental. Times may change but principles endure. There are no substitutes for strength, stability and integrity. Freedom, industry and economy have no imitations. This is a good time to be realistic. What we need most in America is to get down to brass tacks and back to righteousness.

start with young trees

Yes—plastics, synthetics and processed woods are around us in forms that our pioneer forefathers would never guess came from forests. We are constantly finding new important uses for wood.

That is the big reason why America is growing trees as successive crops—a crop for today and a crop for tomorrow. A nationwide program supported by forest industries enters "tree farming"—the growing of trees for our uses.

Tree growth alone is not enough. Forests must be protected to produce to their maximum. That's where we all share the burden. Fire is the forest's greatest enemy. Think and act to help keep fire out of our woodlands.

Mother of Two Praises Hadacol

Supplies Deficient
S. B. Nicotin and Iron

Mrs. Elmer Hise, 3225 2nd Ave., Council Bluffs, Iowa, is a good mother. And like all good mothers she keeps a careful watch for the welfare of her two young children. And when little four-year-old Lucille Hise wasn't feeling as her mother knew she should, she decided to do something about it. Mrs. Hise gave Lucille HADACOL because she had heard how much it was helping children who had poor appetites and stomach distress caused by deficiencies of Vitamins B₁, B₂, Iron and Nicotin. It helped her so much that now Mrs. Hise gives HADACOL to both of her children.

Here is what Mrs. Hise says: "My daughter has taken two bottles of HADACOL and she has been eating more than before and also sleeping better. I think HADACOL is the best thing for children who do not have an appetite. My daughter is four years old. Before taking HADACOL my daughter complained of her stomach hurting her, and I got her a bottle of HADACOL and she says her stomach doesn't bother her any more. I think HADACOL is wonderful. I am also giving HADACOL to my three-year-old daughter."

HADACOL is so Effective
An important thing about HADACOL is that you get Vitamins B₁, B₂, Nicotin and Iron in liquid form, which means that they are quickly absorbed and dispatched to the blood stream, ready to go right to work. HADACOL helps build up the hemoglobin content of the blood (when iron is present) and these precious vitamins and minerals to every part of your body.

HOME AGENT'S NOTES

By MISS MADGE ALLRED

The modern homemaker with her conveniences and modern cleaning equipment does not need to go in for the strenuous, back-breaking week or two of spring cleaning of grandmother's day. If today's homemaker follows a weekly, monthly and seasonal plan of cleaning she can be ready for spring and summer with little effort.

But, as the seasons change, you usually want to change your house's dress to give a change to familiar furnishing and save them too. You will want your house to take on an air of summery coolness or wintry warmth, either of which can add to the coziness of the home and to the economic value as well.

One of the dreeds at this season is cleaning upholstery after the long winter wear. Besides the good vacuuming or brushing with a stiff brush you gave it occasionally during the winter, it needs special preparation for the busy summer.

Since you cannot very well send upholstery to the cleaners, you must clean it at home. You may use either a dry cleaning method with a commercial cleaner or the shampoo or suds method using a commercial shampoo or a homemade (soap-jelly) suds.

DRY CLEANING DIRECTIONS

1. Brush or vacuum the fabric to remove loose dirt.
2. Dip a small brush or cloth into a pan of fresh cleaner. Do not saturate the brush or cloth. Shake or wring to remove surplus fluid. Test color fastness on an unexposed portion of the fabric.
3. Go over small sections of the fabric at a time. Use a gentle lifting motion in the direction of the weave.
4. With a second cloth, dampened with cleaner, lift up and wipe off the loosened soil. Remember that only the surface remains.

Mrs. Ed Garcia and baby, Karen Fay, are back in Lakeshore after spending a week with relatives in Edwardsville.

Malcolm B. Green, Jr., celebrated his first birthday Easter Sunday with a party at the home of his aunt Mrs. John Hourbeight.

Brenda La Fontaine who was under the doctor's care last week, is much improved.

The Lakeshore Civic Association has just received a new shingle roof. There will be a dance Saturday night with music by Danny Seals' band from Gulfport. Proceeds of this dance will go towards the expense of paying for the new roof.

Bay High Chorus Enters Biloxi Contest

Members of the Bay High chorus, under the direction of George Wimberly, chorus and band director, participated in a contest at the Biloxi High School Saturday, March 10.

Following several hours of practice Friday evening, members of the various clubs were entertained at a social at the Biloxi school.

Again on Saturday, the chorus practiced for a number of hours in preparation for the contest that night. One hundred and sixty voices participated in the concert.

Students who accompanied Mr. Wimberly on this trip were Clara Pucheu, Tempie Perkins, Katie Trianna, and Ruth Arnold, altos; Janelle McLain, Lloa Price, Mary Lou Scianca, Jane Wilson, Shirley Mae January, Betty Jean Morris, Vesta Howard, McCord, and Mike Murphy; basses: Vernon Parker, Billy Burrow and Billy James, tenors.

with a slightly moist sponge. Use soap sparingly. When dry, polish surface with a soft cloth. Follow with leather-conditioning cream.

For simulated leather, clean with a damp cloth. If it needs special attention, use mild soap suds to cleanse and remove with damp cloth. Do not use shellac, oil, wax, varnish or polish on leather.

To make crushed wool pile stand up, steam it by spreading a damp cloth on the pile and holding a hot iron close enough, but not touching, to make the pile stand up again. Be sure the pile is thoroughly dry before using again.

The search for oil and gas goes on.

Last year 128 wildcat* wells were drilled in 30 Mississippi counties. However, only 8 of these wildcats were successful in finding oil or gas in commercial quantities.

This high ratio, 16 dry holes to 1 producer, compared with the national average of 9 to 1 shows the extra difficulty of finding oil and gas in Mississippi.

It takes courage to drill a hole in the ground which will cost anywhere from \$40,000 to \$200,000, knowing that the chances are 16 to 1 against you. Yes, it takes courage, and risk money too, and something else—confidence. Confidence in Mississippi.

Mississippi has gained nationwide recognition in the last few years as the state which offers industry a chance to grow and develop in a friendly atmosphere. The state where co-operation between government and business is the keyword, where taxes are fair, and where management and labor work together to build a more prosperous life for all.

This favorable attitude toward industry has helped Mississippi become an important oil and gas producing state. It has enabled the oil and gas industry to expand until today it furnishes employment to thousands of men and women and pays millions of dollars in payrolls and taxes.

In this friendly atmosphere the oil and gas industry will continue to grow and develop, thereby creating more jobs, more payrolls and more revenue for the state treasury.

This is important to you as a citizen because what helps the state's development of our oil and gas resources helps Mississippi and all Mississippians.

Logging It On TV

By JAY METZ

On a recent Thursday night someone took the lid off that box they've been peeking into and "The Thing" got out at last. We're sure of this for, at about 10:30 p. m. at the Coliseum, we saw "The Thing" come down the aisle and enter the wrestling ring. The only thing that confused me was that "The Thing" was announced as Gorgeous George.

An ornate negligee called a dressing gown, a violet with a skirt gun filled with Chanel 678, a disinfected rug for Gorgeous George to stand on, gold bobby pins for the female admirers, tea served by the valet between falls, and other outlandish dramatics gave us a certain amount of fun in a nauseating sort of way.

But even worse than the Gorgeous George entry, plus acrobatic stunts, was the Maison Blanche fiasco commercial. I'm sure glad our set isn't equipped for small. Those commercials really do, and it isn't Channel of any number.

Getting back to the wrestling match, Al Massey was permitted to win the first fall for apparent and obvious reasons. But G. G. finished him off, according to a definite pre-arranged script, in short order for falls two and three—Massey and the sponsors show New Orleans fans and the TV audience that wrestling was reasonably on the level, but fell flat on its face. The whole affair followed the script. You can bet the G. G. didn't agree to come here just for fun—he did it for a guaranteed price and a guaranteed script. He's dumb—like two boxes. Sure hope I don't disillusion too many of you gullible folks.

We liked Charlie Block as Mel's substitute. He kept quiet during a large part of the ruse, and therefore allowed us to draw our conclusions of the actual behind-the-scenes of the event. Good work, Charlie, and Mel to go the same.

We've been watching the Wilkes show put of New Orleans for the past month or so with special interest. Suzanne, everybody's sweetheart, was masked, and all this time we have tried to figure out who she was by identifying her voice and her mannerisms. But last Thursday night she took off her mask and we still did not recognize her. She's still Suzanne, but unmasked.

The only thing we ask, please, of WDSU-TV is to correct your camera angle on Suzanne. When we saw unmasked can only be the fault of the camera technicians. To hear a beautiful voice coming out of an out-of-proportion head is almost more than an eager TV fan can take. We feel sure that this young lady is much lovelier than we have been privileged to see—and we blame the whole thing on the camera angle. Too close and too high. I'm sure that if Suzanne could see herself as the TV cameras have shown her to us she'd think that she was standing in front of one of those so-called trick mirrors, with the mirror winning all the honors. We know she is an attractive girl for some of the shots have shown her as such.

SPRING PASTURES

Clovers are at their best now and clover is at the worst. To help control bloat try putting an electric fence across the clover field, cutting off enough area for only two or three days grazing; then move the fence over. This will get the grass and clover off at the same time and won't injure either. It will give the grass a chance to come back with the clover.

If livestock are allowed to stay on grass and clover all the time they will eat out the grass first and leave the clover until last.

This means the likelihood of bloat occurrence.

Keep mayweed and dock out of your spring pastures. If not clipped they will ruin your pasture. It seems hard to mow a pasture that is furnishing plenty of grazing, but it is necessary to mow clover fields early in order to control weeds.

Grazing winter pea fields, on which corn or soybeans are to be planted, heavily now. On pea fields not to be planted to these early crops, graze until April 15 to 20 and harvest a good pea seed crop.

Study seed harvesting methods. It won't take many seed saved to pay high wages for any time spent studying better methods of harvesting.

PRODUCE TOP QUALITY MILK

To do this the first consideration is to have clean healthy cows. Cows with mastitis mean milk with a high bacterial content. Straw and litter clinging to the udder and flanks of the cow will result in both a high bacterial count and a poor sediment reading. Wash the cow's udder just before milking with a clean rag dipped in warm water.

Next to clean cows comes a clean barn and clean utensils. Included in the clean barn is clean air—no dust, so don't move hay around just before milking. Be sure that every piece of dairy equipment—milkster, strainer, pails and cans are absolutely clean and sterile.

There is no substitute for a careful milk handler. The person doing the milking must be careful to prevent dirt and bacteria from getting into the milk. Remember, use care at all times. It doesn't cost anything and it will result in better milk and a better price to you.

POISON FOR MORE COTTON TO THE ACRE

And lay in your poison now. There may be a shortage of cotton insecticides this year so now is the time to insure an adequate supply for your farm.

Prepare now to poison early. For thrips and cutworms make applications as soon as the two seed leaves appear if these pests

are present. Make 1 to 3 applications. Weevils, fleahoppers and plant bugs, make applications as soon as the first square is seen. Make 3 or 4 applications at weekly intervals.

Apply organic dust poisons in the later afternoon, night or ear-

ly morning. Do not apply in the middle of the day as rising air currents will reduce the effectiveness of the poison.

Recommended dusts for 1951 are 3% gamma benzene hexachloride - 5% DDT with or without sulphur; aldrin (118); toxaphene;

dieldrin (497) and lime-free calcium arsenate—1/2 to 1% parathion.

Sprays to use this year are emulsifiable concentrates of toxaphene aldrin, benzene hexachloride, chlordane and DDT, as well as combinations of these.
